SOLUTIONS**

COMPANY 
PRESENTATION

INTRODUCTION

Welcome to Sky Recycling Solutions, where excellence meets reliability in the aerospace industry. We are specialized in aircraft storage, maintenance and dismantling, offering comprehensive solutions tailored to meet the diverse needs of our clients.

Our core values of proficiency, accountability, and trust underscore everything we do. With a team of highly skilled technicians and industry experts, we ensure that every task is performed with the utmost precision and expertise. Whether it's stocking critical aircraft components, conducting meticulous repairs, or executing safe and efficient dismantling operations, we take pride in delivering results that exceed expectations.

By working with us, you can trust that your aircraft needs are in the hands of industry experts who are dedicated to your success.

STORAGE & PARKING

2.

Our aircraft storage service provides a secure and tailored solution for various models, managed by a qualified team. Whether for short or long durations, we ensure optimal preservation and offer innovative solutions to maintain the value of assets.

MAINTENANCE

1.

Our maintenance service ensures the performance, safety, and compliance of your fleet. With a proactive and personalized approach, we work closely with you to develop customized and optimized maintenance programs to meet your specific needs and maximize the availability of your fleet.

OUR SERVICES

TRANSITION

We provide all necessary tools to streamline procedures between involved parties, covering both documentation and aircraft-related tasks. Our solutions are tailored to accommodate various transition scenarios.

3.

DISMANTLING & RECYCLING

Our team meticulously disassembles aircraft, carefully recovering and recycling each component, from electronic equipment to metals. With our recycling process currently undergoing certification by AFRA, we contribute to reducing the carbon footprint of the aerospace industry, while also valorizing resources and preserving our planet for future generations.

4.

FORMATION

Designed to train future maintenance technicians in mechanics, avionics, and structure, our training center allows students to complete a comprehensive curriculum from obtaining theoretical diplomas to completing practical training, as well as specializing with qualification types.

5.

OUR FACILITIES

MAIN HANGAR

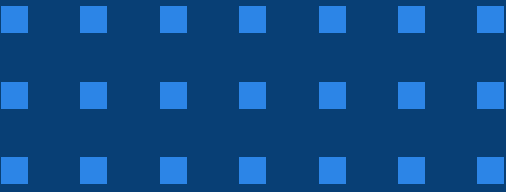

- Surface : 3600m²
- Capacity : one mid-range and two regional aircrafts
- Direct access from taxiway
- Office & Meeting rooms for owner and crew

LOGISTICS HANGAR

- Surface : 1500m²
- Direct access from road and taxiway
- Climate-controlled storage
- Fully equipped and secure
- In-house packing and shipping services

STORAGE & PARKING

- Capacity : 5 Airbus A320 (to start)
- Direct access from road and taxiway
- Indoor and outdoor parking slots available
- Premium security system

OUR LOCATION

Brive Airport's strategic central location makes it an optimal choice, providing convenient access to key cities and regions nationwide.
